

TELUS World of Science-Edmonton

Edmonton, Alberta, Canada

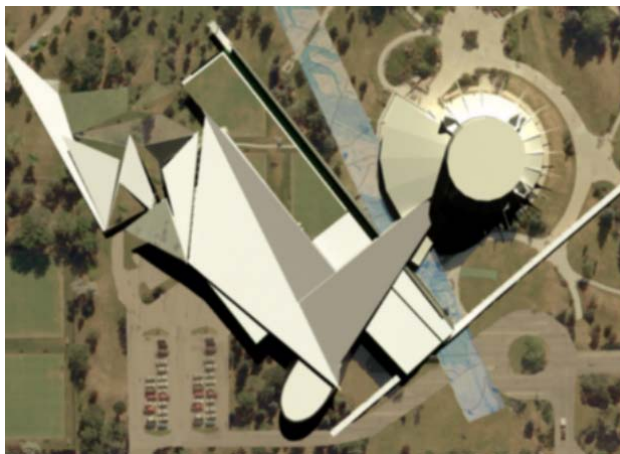

All Images by TELUS World of Science-Edmonton and Cohos Evamy Integratedesign

The TELUS World of Science-Edmonton is a world-class, broad-based science centre that enjoys enthusiastic support of audiences from Northern Alberta and beyond.

First opened in 1984, it has reinvented itself several times. The need for further expansion provides the science centre with a great opportunity to launch new learning and community-based initiatives: Doubled exhibit galleries, the Learning, Conference and

Dialogue Centre, the Digital Visualization Theatre (DVT-a fulldome), the Early Childhood Development Centre, the Web Studio, an upgraded IMAX[®] Theatre and the Canadian Circumpolar Science Centre. Under Director George Smith's leadership and guided by a White Oak *Master Plan*, the science centre's goal is to transform into a green demonstration project and one of the best science centres in the world.
